Pacific Avenue Resurfacing

Project Description

The Pacific Avenue Resurfacing Project will make improvements to 2.3 miles of roadway. The project will include resurfacing:

- Pacific Avenue from March Lane to Hammer Lane — and —
- Thornton Road from Hammer Lane to El Camino Avenue

These are high traffic streets with poor pavement conditions. The last resurfacing was over 17 years ago and included localized minor repairs.

The Pacific Avenue Resurfacing Project work is being done by Granite Construction Company and will begin in July 2017, with anticipated completion in Fall 2017 (weather permitting).

Project Funding

Funding for this project is from the federal Regional Surface Transportation Program.

Travel Tips

- All businesses will remain open during construction.
- During the day, only one lane or turn lane will be closed, in either direction, at a time.
- Watch for signs notifying drivers of changing conditions and workers in the area.
- Allow extra time for traffic delays while work is occurring.
- Please use caution and reduce speed.
